

FLOWABLE COMPOSITE

Our light cured, fluoride releasing, high-radiopaque, resin-based flowable composite is formulated with nanoparticles to provide strength, polish-ability and wear resistance. Available in the five most popular *Vita™ shades.

* Vita™ is a trademark of the Vident Corporation.

FEATURES

- Hybrid nano technology
- Low viscosity
- Precision controlled syringe
- Excellent aesthetics
- Radiopaque
- Flouride releasing

BENEFITS

- Providing strength, polishability and wear resistance
- Flows easily in difficult areas
- Easy handling
- Versatile application and ideal color match
- Easily detectable on X-rays
- Nano hybrid technology

CODE	DESCRIPTION
Q40251-FC	Shade A1 Contains: 2 x 2g Syringes with 20 Tips (20g)
Q40252-FC	Shade A2 Contains: 2 x 2g Syringes with 20 Tips (20g)
Q40253-FC	Shade A3 Contains: 2 x 2g Syringes with 20 Tips (20g)
Q40254-FC	Shade A3.5 Contains: 2 x 2g Syringes with 20 Tips (20g)
Q40255-FC	Shade B1 Contains: 2 x 2g Syringes with 20 Tips (20g)
